**4 NOVEMBER 2019**

### WHAT

#### WHAT TOPICS DOES THIS COURSE COVER?

Well-written project documents ensure success and mitigate risks, before implementation.

- Project cycle management
- Project design and budgeting processes
- Project document
- Project appraisal

#### WHAT WILL I LEARN?

All exercises and case studies are based on real calls for proposals to international and public sector organizations.

- **Project cycle management** principles, approaches, processes, practices, and its application to project design
- A detailed and structured **methodology of project design**, based on emerging practices
- Practical **tools and techniques** to identify, design, and plan projects
- Information about **funding sources and financial instruments** in the context of development cooperation

#### WHAT WILL I BE ABLE TO DO?

Participants develop a project proposal, which can be adapted to fit real professional contexts in the future.

- Identify **project opportunities** for an organization
- Use a set of tools and techniques to **identify, design, plan, and budget** projects
- Develop a **project document** and mobilize resources
- Identify potential **partnerships**

---

## WHY

### WHY SHOULD I JOIN?

This course includes a distance learning phase, which frees up classroom time for more practical exercises.

- Project design skills are **essential to workers** in the development cooperation field.
- Employers that sponsor participants receive **project documents ready for use**, and participants become **certified professionals**.
- The programme was developed by project management **experts and practitioners**.
- Participatory activities include **self-guided modules, an online forum, and practical assignments**.

## WHO?

### WHO TAKES THIS COURSE?

- Development cooperation professionals
- Resource mobilization officers
- Project managers and assistants
- Programming and planning officials
