# ONLINE CERTIFICATION PROGRAMME ON PROCUREMENT MANAGEMENT FOR GOODS AND PHYSICAL SERVICES

13 SEPTEMBER – 5 NOVEMBER 2021

 8 WEEKS, 70 HRS

*Information Note*

## OVERVIEW

This online certification programme provides a comprehensive coverage of the overall spectrum of technical, procedural and business competencies needed for successful implementation of each step of the procurement process (needs' identification, market research, procurement planning, competition/bidding procedures, bid evaluation, contract award and contract management) for goods and physical services. It brings together experts in procurement management as well as creative thinkers, in a collaborative and instructive online space.

Are you ready to become a certified procurement professional in the management of goods and physical services?

## WHY A CERTIFICATION PROGRAMME ON PROCUREMENT OF GOODS AND PHYSICAL SERVICES

National development projects typically incorporate substantial investments for the acquisition of equipment and physical services which are often financed by development partners like the Multilateral Development Banks and UN Agencies. Government agencies responsible for the execution of such projects are often constrained by the scarcity of procurement practitioners who are competent in discharging the full range of bidding and contract administration functions in accordance with the guidelines and procedures of the funding agencies and the standards of professional business practice.

Such deficiencies in staff capacity can compromise the achievement of the projects' outcomes as well as undermine the integrity and "value for money" considerations in the procurement process.

This certification programme contributes to enhance efficiency and effectiveness of:

- National procurement practitioners
- Procurement staff from International Financial Institutions (IFI)-funded projects as well as UN staff who are involved in planning, executing and monitoring both national and international competitive bidding operations.

## WHAT WILL I BE ABLE TO DO?

- Competently plan and execute the entire procurement process functions for acquisition of equipment and physical services
- Competently choose the contractual strategy and supervision of contracts performance in accordance with the standards of professional practice.

## WHAT CERTIFICATION WILL I GET AS A SUCCESSFUL CANDIDATE?

- You will obtain a certificate of achievement once you have completed successfully the programme requirements.
- This certificate will demonstrate that you possess the right knowledge, skills and attitudes to plan and execute the entire procurement process.
- This certificate could be a first brick to build your future ITCILO Diploma in Procurement Management!

## WHY SHOULD I JOIN?

This course is delivered through distance learning and deployed on the ITCILO e-campus. It frees you from the classroom and gives you the flexibility to complete the learning modules at your own pace.

## WHO TAKES THIS COURSE?
