LABOUR STATISTICS

# STATA FOR LABOUR MARKET ANALYSIS

9 JUNE – 11 JULY, 2025

ONLINE: 9 JUNE – 4 JULY 2025

TURIN, ITALY: 7 – 11 JULY 2025

*Information Note*

# INTRODUCTION/BACKGROUND

The demand for analyzing labour market data has risen, in line with the prioritization of countries to better understand the functioning of the labour market and the impact of policies and programmes on outcomes, including unemployment and employment.

The adoption of the 2030 Agenda for Sustainable Development requires governments and other stakeholders to monitor progress towards the defined goals and targets, including SDG 8 on Decent Work and Economic Growth. At the same time, new measures of the labour market are evolving through the adoption of statistical standards by the International Conference of Labour Statisticians (ICLS). The 19<sup>th</sup>, 20<sup>th</sup> and 21<sup>st</sup> ICLS resolutions on work statistics are crucial for decent work-related SDG indicators, particularly SDG 8 on promoting inclusive and sustainable growth, employment and decent work for all.

The analysis of labour market data relies on the availability of data, which has expanded in recent years, and the use of appropriate methodologies to identify key factors and trends relevant to evidence-based policymaking. In this regard, analysts and statisticians

depend on statistical software that provides a user-friendly approach to data management, description, graphics and analysis. STATA is such a tool, which is powerful but easy-to-use, and is utilized across the world for analysing labour market data.

Building on its long experience in delivering training on labour market statistics, the International Training Centre of the ILO in full collaboration with the ILO Department of Statistics is proud to offer the upcoming blended training (online and face-to-face) STATA for labour for labour market Analysis. The course will take place online from 09 June – 04 July, and face-to-face in Turin, Italy from 07 – 11 July 2025.

## LEARNING OBJECTIVES

The main objective of the course is to provide participants with the necessary advanced skills to use the computer software STATA to analyze the labour market for evidence-based policymaking, including SDG and decent work indicators. The course is designed to enhance institutional capacities to identify, collect, analyze and disseminate labour market information and other indicators related to the SDGs indicator framework. Moreover, the course will also emphasize the latest 20th and 21st ICLS resolutions concerning work statistics as an important pillar to measure progress towards the 2030 agenda, particularly Goal 8 on promoting inclusive and sustainable growth, employment and decent work for all.

More specifically, the course aims to:

- Enhance understanding about the definitions, terminologies, and resolutions of labour statistics;
- Understand the Decent work and SDG indicators framework;
- Foster better understanding and operationalization of key international statistical standards;
- Promote sound statistical data processing and analysis of indicators;
- Acquire a comprehensive understanding of how STATA is applied to analyze the labour market and translate it into adequate policymaking;
- Obtain a better understanding on the various measurements of labour force indicators using STATA.

# TARGET AUDIENCE

The course targets:

- Labour Statisticians from national statistical offices; Ministries of labour and related institutions (such as labour observatories); Other Ministries or Government institutions in charge of SDG statistical monitoring; Employment and development policy analysts
- from National Statistical Offices, Research and Academic institutions, International organizations and Donor organizations; and Officials responsible for managing the production and dissemination of labour market statistics, particularly for the SDG
- national reporting.

# COURSE CONTENT

## ONLINE PHASE

Using a step-by-step approach, this course provides practical skills and tips for analysing labour market data to construct and interpret key decent work and SDG indicators. The course is structured around four modules:

### Module 1 Overview of labour statistics

---

- Definitions and terminology – Resolutions of the International Conference of Labour Statisticians
- Decent work and SDG indicators

### Module 2 Intro to STATA

---

- STATA screen and toolbar
- Importing and using data
- Do-file – running commands

### Module 3 Measuring the labour force and other indicators

---

- Overview and processing of labour force indicators, including employment, unemployment, NEET, potential labour force (including discouraged job seekers), classification of status in employment (ICSE-93), of occupations (ISCO-08), of economic activities (ISIC Rev.4) ...
- Deriving labour force indicators in STATA

### Module 4 Analysis of labour statistics by participants

---

- Basic labour market analysis based on survey data

## RESIDENTIAL PHASE

Using a step-by-step approach, this course provides practical skills and tips for analysing labour market data to construct and interpret key decent work and SDG indicators. The course is structured around four modules:

### Module 1 Overview of labour statistics

---

- Definitions and terminology – Resolutions of the International Conference of Labour Statisticians (19th, 20th and 21st ICLS)
- Decent work and SDG indicators
- Summary of key labour market concepts

### Module 2 STATA Advanced

---

- Summarizing and analyzing data
- Modifying and reshaping data sets
- Collapsing and merging data sets
- Exporting results to Excel

### Module 3 Technical Application: Measuring the labour force and other indicators

---

- Review of the processing of labour force indicators covered in the online phase, , Classification of status in employment (ICSE) aligned with ICSE-18, , social benefits, informality (based on 21st ICLS), ...
- Deriving labour force indicators in STATA

### Module 4 Analysis of labour statistics by participants

---

- Advanced labour market analysis based on survey data

## TRAINING METHODOLOGY

The course is constructed as follows:

- Lectures by experts and practitioners
  - Sharing knowledge with participants around the various topics discussed in the course
- Practical exercises and group work which will involve preparing, describing and analyzing real labour force data using STATA
  - Hands-on practical exercises on using STATA for analyzing real labour market data

The course will emphasize a unique learning approach, which is structured around three main pillars:

- **Harnessing digital learning technology**

- Interactive online platform
- Real-time feedback and support
- Group discussions and Interaction

- **Training methodology will combine**

- Expert presentations
- Advanced exercises using STATA
- Group discussions and exercises
- Group work

## VENUE & DATES

The course will be held online from 9 June - 4 July 2025 and as a face-to-face training from 7 - 11 July in Turin, Italy.

## LANGUAGE

The course will be conducted in English.

## COST AND FINANCING

The course is fee-paying. The course fees include:

Tuition: €2,000;

Subsistence: €720

**Total: €2,720**

**Important Note:** Every participant enrolled in the course will receive a free STATA license!

## PAYMENTS AND CANCELLATION

- Payments need to be received latest 14 days before the beginning of the course. Payment modalities will be communicated in the letter of acceptance. In the event of a cancellation, a participant may be substituted with another candidate. Cancellations remain free of charge if communicated latest 14 days prior to the start of the course.
- For cancellations after this date, a penalty will be applied. For further information regarding payment, cancellation and refunds, please consult: <https://www.itcilo.org/applications-payments-cancellation>

For information regarding payment, cancellation and refunds, please refer to the website: <https://www.itcilo.org/applications-payments-cancellation>

## HOW TO APPLY

To register, kindly fill in and submit the online registration form available through this link:  
<https://oarf2.itcilo.org/STF/A9718143/en>

- The selection of applicants will be based on the submission of: A completed online registration form
- An official sponsorship letter issued by their organization (or donor organization),

**Kindly note that we need to receive the above-mentioned documents in order to register you for the course!**

The selection of applicants will be based on the following criteria:

- Proven work experience in relevant field (e.g., labour force survey data collection, processing, analysing and interpretation; statistical reporting);
- Submission of a cover letter explaining how the course will help the participant enhance their professional skills and how they will use these skills in their respective organizations

**We strongly recommend applying early since admission is competitive and space is limited!**

## DEADLINE FOR APPLICATION

The deadline for applications is **09 June 2025**.

## CONTACTS

- Administrative arrangements can be coordinated with the course assistant via ([lmstats@itcilo.org](mailto:lmstats@itcilo.org));
- For the technical coordination, please also be in contact with the ITCILO programme officer Mr. Mostafa Mohamed ([m.mohamed@itcilo.org](mailto:m.mohamed@itcilo.org)).

# CAMPUS LIFE

## A THRIVING UNITED NATIONS CAMPUS AND COMMUNITY OF PROFESSIONAL PEOPLE FROM AROUND THE WORLD

- **Three organizations** from the United Nations system on campus
- **More than 300 training courses** and activities in a stimulating international environment
- **Thousands of participants** from all over the world

## ENVIRONMENT AND SURROUNDINGS

### Grab a campus bicycle and explore the Turin Centre.

Located in a leafy park on the banks of the Po River, it's a great place for study and collaboration. Experience innovative learning and training methods in modern classrooms equipped with simultaneous translation services.

## HOUSING, DINING, AND MORE

Comprising more than 280 private dormitories, the **Turin Campus provides a broad range of services for course participants and partners** including a free-flow restaurant, travel agency, laundromat, post office, gym, medical services and a reception desk open 24/7.

## COMMUNITY ENGAGEMENT AND DIVERSITY

**Participants can enjoy social events organized by the Turin Centre** as well as by their course facilitators. Whether on or off campus, people from different cultural backgrounds have the opportunity to listen to live music together, cook and share traditional foods, or team up to play games and network.

## WITHDRAWAL, CANCELLATION POLICY, AND REFUNDS FOR OPEN COURSES

If an enrolled participant wishes or must withdraw from a course, they may choose to apply to a different course or be substituted by another candidate. The participant must notify the Centre, in writing, of their decision at least 14 days prior to the start date of the course. Cancellation of participation in regular courses will result in the following penalties:

- 14 days or more prior to the start date of the course: No penalty, 100% refund of amount paid less applicable bank charges
- 8 to 13 days prior to the start date of the course: Penalty of 50% of course price, refund of residual amount paid (if any) less applicable bank charges
- 7 days or less prior to the start date of the course: Penalty of 100% of course price.
